

Alternative Provider Information Requests

For purposes of the following questions please consider a “Residence Network Access Line” to be the connecting facility between a residence customer’s premises and a serving central office that provides customer access to the dial network for placing and receiving calls. Consider Integrated Services Digital Network (“ISDN”) Residence Service to be a telecommunications service that provides an integrated voice/data communications capability for the transmission of circuit switched voice and data and packet switched data signals on an incoming and outgoing basis utilizing Integrated Digital Network architecture.

1. Offered Network Access Line Services: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) please:

a) indicate whether you offer any service that includes a residence network access line including, but not limited to, ala carte residence network access lines and packages containing residence network access lines

b) if you do offer any service described in Question 1.a, please describe the service you offer, if any, that comes closest to an ala carte residence network access line (e.g. a service that includes a basic residential access line that is not bundled with either vertical or other “optional” services or buckets of local or long distance minutes, and that permits the customer the option of selecting local usage fees on a per call/per minute basis).

c) if you do offer any service described in Question 1.a, please describe the service you offer, if any, that comes closest to a flat rated residence network access line and local usage combination (e.g. a service that includes a basic residential access line bundled with either a bundle of local minutes or unlimited local minutes and that is not bundled with vertical or other “optional” services or buckets of long distance minutes).

2. Network Access Lines Provided: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) please provide:

a) a count of the total number of services described in Question 1.a that your company provided/sold on December 31, 2005. Please specify the platform used to provide these services (e.g., resale, UNE-L, UNE-P, special access, end-to-end facilities). If more than one platform is used to provide these services, please provide counts of services, by exchange, for each type of platform.

b) a count of the total number of services described in Question 1.b that your company provided/sold on December 31, 2005. Please specify the platform used to provide these services (e.g., resale, UNE-L, UNE-P, special access, end-to-end facilities). If more than one platform is used to provide these services, please provide counts of services, by exchange, for each type of platform.

c) a count of the total number of services described in Question 1.c that your company provided/sold on December 31, 2005. Please specify the platform used to provide these services (e.g., resale, UNE-L, UNE-P, special access, end-to-end facilities). If more than one platform is used to provide these services, please provide counts of services, by exchange, for each type of platform.

3. Network Access Line Prices: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) please provide:

a) the price charged to end users for the services described in Question 1.b (please provide the total price assessed by the Company to the consumer including any taxes, fees, surcharges, etc.)

b) the price charged to end users for the services described in Question 1.c (please provide the total price assessed by the Company to the consumer including any taxes, fees, surcharges, etc.)

4. Offered ISDN Services: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) please indicate whether you offer any service that includes a residence ISDN service including, but not limited to, ala carte residence ISDN service and packages containing residence ISDN service.

5. ISDN Lines Provided: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) where you offer a service that includes a residence ISDN service please provide a count of the total number of such services provided including, but not limited to, ala carte residence ISDN services and packages containing residence ISDN services on December 31, 2005.

6. Offered Call Waiting: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) please identify whether you offer Call Waiting. Please indicate whether the service is offered on an ala carte basis, as part of packages of services, or both.

7. Offered Caller ID: For each exchange in the AT&T Illinois ILEC service area within Illinois MSA 1 (see the list of exchanges provided below) please identify whether you offer Caller ID, Caller ID with Name, and/or Talking Call

Waiting. Please indicate whether the service is offered on an ala carte basis, as part of packages of services, or both.
